- A team player with good communication skill always ready to work for the enrichment of knowledge.
- Has working knowledge on React and Java Microservice Development using Spring framework on a beginner level.
- Have decent knowledge on Databases like Oracle SQL, My SQL and Postgres SQL

Achievement

Online Railway Reservation System Application

Completed end to end case study of Online Railway Reservation System Application using Spring boot and React used for user interface. It is a double-role application project i.e. Admin and User, where Admin will have the main control over the system. Admin will be responsible for maintaining the system and also, keeping a check on the availability of trains, and updating any details related to the reservation system. On the other hand, Users can register themselves and can do online booking of trains.

Certifications

- Full Stack Java development certification from Qspider Institute, Pune, Wakad.
- AWS Cloud Practitioner Essentials.
- Agile Software Development
